

INDEX

INTRODUCTION :

- Chalk walls, 18
- Cheap materials, the search for, 13
- Pisé de craie, 16, 17, 107
- Pisé, experiments with, 15; in moulds, 19, 20; in South Africa, 22, 23
- Pliny on Pisé de terre, 25
- Rammed chalk, 16, 17, 107

GENERAL SURVEY :

- Building materials, shortage of, 26
- "Ersatz" products introduced during the War, 26
- House famine, the, 27
- Local materials, use of, to avoid transport, 29
- Lutyens, Sir Edwin, and Mr. Alban Scott, cottage by, 30
- Rural housing, suitability of cob and pisé for, 28

I—COB :

- Allen, Mr. C. B., his reference to Devon cob, quoted, 47
- Baring-Gould, Rev. S., on cob, quoted, 47
- Beauty of cob, 35
- Bernard, Mr. Charles, his account of Sir Walter Raleigh's cob house, 45, 46
- Book of the West, The*, by Rev. S. Baring-Gould, reference to cob in, quoted, 47
- Building, 37, 38, 39
- Carpentry and joinery, 41, 42
- Chimneys, 44
- Cob tradition, 52
- Composition, 36
- Cost, 35, 50

COB—continued :

- Cottage-Building*, reference to cob in, quoted, 47
- Country Life*, letter to, relating to cob work, quoted, 115, 116
- Design, 44, 45
- Devon cob, 47
- Drying, 39
- Elizabethan cob houses still existing, 34
- Former conditions returned, 52
- Foundations and base, 40; result of bad, 34
- Fruit walls, of cob, 47, 48
- Fulford, Mr., of Great Fulford, on cob, 50-52
- Gimson, Mr., his description of building cob, quoted, 35
- Hayes Barton, Sir Walter Raleigh's house at, 45, 46
- Hipped roofs, 41
- Joinery, 41, 42, 43
- Masonry and carpentry, 41, 42
- Method of building, 36-45
- Mixing, 37
- Northcote, Lady Rosalind, her description of Sir Walter Raleigh's house, 46
- Primitive methods, 47
- Protection, 43
- Protective wash, 51
- Raleigh, Sir Walter, his cob house at Hayes Barton, 45, 46
- Rats, 44
- Reed thatch, 46
- Rendering, 51
- Roofing, 51
- Shuttering, 51
- Strength, 44
- Thickness of walls, 40
- Traditional building material in Devon and Wessex, 33
- Training of ex-soldiers, 52

II—Pisé :

- Bolts, 86
- Bonders, 69
- Building procedure, 71, 72, 74, 75
- Capabilities, 57, 58
- Corners, 68
- Cyclopædia, or Universal Dictionary of Arts, Sciences, and Literature*, on pisé, quoted, 59-71
- Damp-course, 86
- Definition of Pisé de terre, 57, 59
- Durability, 82
- Earthwork, A Manual on*, quoted, 73-76
- Empandeni, pisé work executed at, 78, 79, 80
- Excavation, 86
- Etah Jail, pisé work executed at, 76, 77, 78
- Fillet, 87
- Floating, 86
- Foundations, 74
- Frames, 87
- France, introduction of pisé into, 57
- Gorffon, Monsieur, reference to his treatise on pisé, 57
- History, 57
- Indian and Colonial practice, 73-88
- Introduced into France by the Romans, 57
- Journal de Physique*, by the Abbé Rozier, quoted, 58
- Lintels, 87
- Locale, 58
- Method of building, 58-62
- Method of working, 60, 61, 62
- New South Wales, pisé work in, 81-88
- Origin, 58
- Picture-rail, 87
- Plant required, 85, 89, 90
- Plastering, 75
- Pliny, references to his account of pisé, 25, 57
- Plugs, 86, 87
- Protection, 75
- Rain, 67
- Rammer, the, 59, 60
- Ramming, 62, 76
- Rate of work, 63
- Rendering, 70
- Rods *versus* bars, 75, 76

Pisé—continued :

- Rozier, the Abbé, his *Journal de Physique*, quoted, 58
- Shuttering, 59, 88, 89
- Shutter ties, 73
- Skirting, 87
- Soil blending, 64; preparation of, 66, 67; suitable, 63, 74, 86; tests, 63; to ascertain quality of, 65
- Speed of building, 70
- Stability, 82
- Strength, 69
- Studding, 87, 88
- Theory and science of pisé, the, 62-73
- Ventilators, 86
- Virtues of pisé, 72
- Wire netting, use of, 87, 88

III—CHALK :

- Block chalk, 117, 118
- Chalk compost, historical, 107; composition and uses, 108, 109
- Chalk conglomerate, 114
- Chimneys, 110
- External rendering, 110
- Frost, 109
- Garden walls, 111
- House walls, 112
- Old and modern examples, 112-115
- Rats and chalk, 116
- Rendering, 110
- Repairs, 110
- Roof, 111
- Strength, 110
- Timber, 109
- Winterslow cottages, the, 115, 116

IV—UNBURNED CLAY AND EARTH BRICKS :

- "Adobe," use of, in New South Wales, 124
- Age of clay-lump buildings, 124
- East Anglia, use of sun-dried bricks in, 121
- Method of making, 121
- New South Wales, use of sun-dried bricks in, 124
- Skipper, Mr., on sun-dried bricks, quoted, 121
- Strength of clay-lump walls, 124

Index

141

UNBURNED CLAY AND EARTH
BRICKS—*continued*:
Thickness of clay-lump walls,
122-124

APPENDIX:

Cold-water paint, recipe for, 129
Cost, an analysis of building,
131

APPENDIX—*continued*:

Country Life, letter to, relating to
cob work, quoted, 132, 133
Distempers, recipes for, 129
Local materials, importance of
using, 130, 131
Weight of building materials,
table of, 130
Whitewash, recipes for, 127, 128
