

# CONTENTS

	PREFACE .....	3
<b>INTRODUCTION</b>	HISTORICAL BACKGROUND .....	5
	ADVANTAGES OF CEBS .....	6
	KEY QUESTIONS .....	7
	PRODUCTION .....	8
	PRODUCTION LINES .....	9
	THE MATERIAL .....	12
	PRINCIPLE CEB CHARACTERISTICS .....	13
	LAUNCHING PRODUCTION .....	14
	THE DEVELOPMENT OF THE MATERIAL .....	16
	EARTH - AN ARCHITECTURAL TRADITION .....	17
<b>SOIL</b>	SOIL FOR BUILDING PURPOSES .....	19
	PROPERTIES .....	20
	TYPICAL SOILS .....	22
	BEHAVIOUR OF SOILS IN THE PRESENCE OF WATER .....	24
	HYDROUS STATES OF A SOIL .....	25
	PROSPECTING .....	26
	IDENTIFICATION : LABORATORY TESTS .....	27
	IDENTIFICATION : FIELD TESTS .....	28
<b>STABILIZATION</b>	GENERAL CONSIDERATIONS .....	31
	DIFFERENT WAYS OF STABILIZING AND STABILIZERS .....	32
	CEMENT STABILIZATION .....	33
	LIME STABILIZATION .....	34
	CALCULATING HOW MUCH STABILIZER TO USE .....	35
<b>EQUIPMENT</b>	SELECTION CRITERIA .....	37
	PRODUCTS .....	38
	USES .....	39
	CHOOSING A PRESS .....	40
	CHOOSING SOIL PREPARATION EQUIPMENT .....	42
<b>PRODUCTION LAYOUT</b>	DEFINITION OF THE PRODUCTION LINE .....	45
	TYPES OF EQUIPMENT .....	46
	MANUFACTURING MEANS .....	47
	TYPES OF PRODUCTION LINE .....	48
	INVESTMENTS .....	49
	SEMI-MECHANIZED BRICKWORKS .....	50
	SEMI-MECHANIZED BRICKWORKS WITH MOBILE PRESSES .....	52
	FULLY MECHANIZED BRICKWORKS .....	54

## CONTENTS

<b>PRODUCTION</b>	<b>SOIL EXTRACTION .....</b>	57
	<b>TRANSPORT .....</b>	58
	<b>STOCKING RAW MATERIALS .....</b>	59
	<b>MANUAL PREPARATION .....</b>	60
	<b>MOTORIZED PREPARATION .....</b>	61
	<b>MEASURING OUT .....</b>	62
	<b>MIXING .....</b>	64
	<b>COMPRESSING THE BLOCKS .....</b>	66
	<b>CURING AND DRYING .....</b>	68
	<b>TRANSPORT AND STORING .....</b>	70
	<b>THE DEVELOPMENT OF THE MATERIAL</b>	
	<b>SOIL IN ADDED MATERIAL TRADITION</b>	
<b>FINAL PRE-PRODUCTION OPERATIONS</b>	<b>"RUNNING IN" PRODUCTION PERIOD .....</b>	71
	<b>PRODUCTION TESTS .....</b>	72
	<b>INTERPRETING RESULTS AND TOLERANCES .....</b>	74
	<b>TRAINING PRODUCTION STAFF .....</b>	75
	<b>BEHAVIOR OF SOIL IN THE PRESENCE OF WATER</b>	
	<b>HYDROSTATIC STATE OF A SOIL</b>	
	<b>PROSPECTING</b>	
<b>QUALITY CONTROLS</b>	<b>CONTROLLING RAW MATERIALS .....</b>	77
	<b>MANUFACTURING CONTROLS .....</b>	78
	<b>PRODUCT CONTROL .....</b>	79
	<b>ORGANISATIONAL AND EQUIPMENT CONTROL .....</b>	80
	<b>HOW TO CARRY OUT CONTROL OPERATIONS .....</b>	81
	<b>GENERAL CONSIDERATIONS</b>	
	<b>DIFFERENT WAYS OF STABILISING AND STABILISERS</b>	
	<b>CEMENT STABILISATION</b>	
	<b>LIME STABILISATION</b>	
<b>PRODUCTION MANAGEMENT AND ECONOMICS</b>	<b>MANAGEMENT .....</b>	83
	<b>CALCULATING COSTS .....</b>	84
	<b>MARKETING .....</b>	85
	<b>EQUIPMENT</b>	
<b>ANNEXES</b>	<b>CALCULATION OF STABILIZER QUANTITY .....</b>	87
	<b>BLOCK-BREAKING APPARATUS FOR USE IN BRICKWORKS .....</b>	88
	<b>FLAT WHEELBARROWS</b>	
	<b>SCREEN AND MEASURING BOX .....</b>	89
	<b>EQUIPMENT FOR SITE TESTS .....</b>	90
	<b>SMALL LABORATORY EQUIPMENT .....</b>	91
	<b>EXAMPLE OF RECORD SHEET .....</b>	92
	<b>MANUFACTURING METHODS</b>	
	<b>TYPES OF PRODUCT MOLDING METHODS</b>	
	<b>SEM-MECHANIZED SHOCKMILLS</b>	
	<b>SEM-MECHANIZED BRICKWORKS WITH MOBILE RESESS</b>	
	<b>BIBLIOGRAPHY .....</b>	93
	<b>INDEX OF KEY WORDS .....</b>	103
